Overview

The main purpose of this research was to
and explored how

. This study focused on
influences

.

Independent Variables

The independent variable(s) in this study were:

- .
- .
- .

Dependent Variables

The dependent variable(s) measured in this research were:

- .
- .

Mediator / Moderator Variables

The mediator or moderator variable(s) included:

- .
- .

Method

1. Participants:

2. Procedure:

- Pre-test was administered.
- Independent variable was manipulated ().
- Post-test was administered.

3. Instruments: .

Results

Data analysis was performed by comparing .

Key findings:

-
-
-

Conclusion

This research shows that . The findings suggest that

.
